5. Description of Problem, Suggested Intervention and List of Items

Brief description of the current situation which is to be targeted by the earmarked donation, and list of required items covered by the donation.

Cantonal hospital „Dr. Irfan Ljubijankić“Bihać is a health institution with more than 90 years of tradition. Since its beginnings, in the 1990s of the last century, up to present, the Hospital in Bihać has gone through different phases of development and organizational structures.

The Hospital lays on more than 84 000 m2 of land, together with a few hospital ward facilities.

Today, cantonal Hospital „Dr. Irfan Ljubijankić“Bihać is a leading health institution in the Una-Sana Canton, offering secondary and tertiary health care for about 300 000 citizens living in eight municipalities of the Una-Sana Canton.

In the field of providing hospital treatment for bedridden patients, the following are in function:

Surgery, Orthopaedics with Traumatology, Urology, Gynecology and Maternity, Neonatology, Pneumophthisiology, Internal Medicine, Otorhinolaryngology, Paediatrics, Neurology, Psychiatry, Infectiology, Ophthalmology and Dermatovenerology.

The hospital has about 680 patient beds with a constant occupancy of over 500.

At the time of the pandemic, our hospital has a central role in caring for patients with more severe symptoms. We currently have 12 coronavirus positive patients in the infectious ward. We have 5 of our own and two donated respirators.

In general, Bihać and our hospital are not in the focus of donors from the level of the Federation and Bosnia and Herzegovina, so we have great needs.

The cantonal hospital currently has a poorly adapted intensive care unit, but also an infectious one.

Equipment needed are kits for intensive care, including hospital beds with accessories. Intensive care equipment is necessary due to the growing number of patients who need this type of health care.

6. Project Timeframe

Overview of the expected timeframe and related activities

We expect the project to be implemented between May and October 2020.

7. Budget Proposal in CZK

(Funding from the Czech Official Development Assistance Only)

Budget Category	Unit Specification	Unit Number	Unit Price	Total Costs
