

SANDVIK COROMANT – ADVANCE PLASTIC PRODUCTS INQUIRY

The Category Manager “Packaging & Label” of Sandvik Coromant AB (www.sandvik.coromant.com/) responsible for purchasing advance plastic products that Sandvik sources from external suppliers is seeking for manufacturers of the following:

- Plastic producer company with high skills in design, mould development and production of products.

Sandvik Coromant are using small boxes to pack the insert for metal cutting industries.

We are also using a tray within our production, that is advance, dia ca. 300mm.(no picture)
Below are some criteria of a plastic producer that I’m looking for in () = nice to have.

Tooling

- Product design capabilities
- Design for manufacturing consultancy
- Precision thermoplastics mold manufacturing (10Ton to 1800Ton)
- High cavitation, fully interchangeable mould
- (Multi shots/components mould)

Moulding

- High cavitation, ultra-precision injection moulding
- Thin wall high speed moulding
- (Decorative film insert moulding)
- Micro moulding
- Rapid heat cool moulding
- (Extrusion blow moulding)

Secondary Process

- Advanced silkscreen and tampo printing machinery
- Hot stamping
- (Fully automated high precision assembly)
- (Development of robotic assembly processes)
- (High precision laser etching machinery)

Others

- Sustainability work
- Broad spectra of working with different plastic raw materials. Both recycling material and virgin raw material
- clamping units for turning centers, static and driven (BMT and VDI)
- holding tools
 - ✓ face mill holders , ER Collet chucks, hydraulic chucks, shrink fit, tap holders
 - ✓ DIN 69871, MAS 403 BT, HSK DIN 69893, ISO 26623, CAT-V ASME B5.50-2009
- accessories
 - ✓ collets, sleeves and pull studs

Interested suppliers, please send your interest to CzechTrade Office in Stockholm by e-mail to the address:
tomas.rousek@czechtrade.cz

Selected companies will be contacted by CzechTrade for negotiations.
