AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY
OF THE CZECH REPUBLIC TO THE REPUBLIC OF ARMENIA

Excellency,

It is a great honor to invite you to attend the 3rd International Exhibition on Defense Technologies "ArmHighTech-2022", which will be held from March the 31st to April the 2nd, 2022, in Yerevan (Republic of Armenia).

The event is co-organized by the Ministry of High-Tech Industry of the Republic of Armenia and the Ministry of Defense of the Republic of Armenia and it constitutes an integral part of the Collective Security Treaty Organization's security system framework.

This exhibition is anticipated to bring together representatives of over a hundred international companies from more than 20 countries engaged in the production of defense and high technologies, as well as high-ranking officials and prominent decision-makers in the sector, by creating a platform for new collaborations, exchange of experience, exhibiting products and discovering new markets.

The major goal of the event is to demonstrate the latest, best in class, current and future defense technologies through exhibits, live demonstrations, conferences and seminars. The Exhibition features a full spectrum of defense product segments, with a special focus on innovation and technologies.

Taking into account that we attach great importance to the establishment of more profound bilateral relations between our governments, we also encourage you to consider the possibility of participating with a separate pavilion to highlight your country's defense and high-tech industry progress.
