*Brief description of the current situation which is to be targeted by the earmarked donation;
 list of required items covered by the donation; prospected sustainable use of the donation*

Shaqlawa Teaching Hospital – Maternity and Pediatric Department

The Maternity and Pediatric Department is one of the key units of Shaqlawa Hospital, providing 24-hour services for pregnant women, newborns, and premature or unwell infants. More than 30 births take place each week, and the staff works continuously to serve mothers and children.

The Shaqlawa Teaching Hospital is the only governmental institution providing this type of advanced medical care in a large mountainous area, including Shaqlawa and nearby towns (Harir, Basirma, Kore and Balisan) and comprising about 80 000 inhabitants. This includes a major refugee camp for Syrian Kurds in Basirma.

While its services have greatly helped local residents and reduced their need to travel to Erbil, the department still needs to improve its facilities, equipment, and care for premature babies and children born with health complications.

A technical specification of the requested One Day Surgery equipment package is enclosed below.

4. Project Timeframe

Overview of the expected timeframe and related activities

Four months after signing the contract, no later than October 2026.

5. Budget Proposal in CZK

(Funding from the Czech Official Development Assistance Only)
